Filed: February 19, 2002)
For: LASER ARCHERY BOW SIGHT)

Honorable Commissioner of Patents
Washington, D.C. 20231

RECEIVED
MAY 13 2003
TECHNOLOGY CENTER 2800

RESPONSE

Sir:

This is in response to the Office Action mailed February 13, 2003.

Remarks

The examiner has rejected claims 1-12 under 35 U.S.C. §102 as being anticipated by Huang.

Huang discloses a laser sight for use with an archery bow. The laser sight includes a holding frame (2) which is mounted to the middle portion of the bow and a laser module coupled to the holding frame.
